				Enter Username Enter Password Login		Englis		×

5. Click the Here to download plugin, before install the plugin, please close the browser first.

 Open the Edge browser, input the NVR's IP address or <u>www.autonat.com</u>, click the Internet Explorer mode button ot enable IE mode. Now the webclient works normal, all functions available just like in IE browser.

7. Go to Settings, Default browser, Internet Explorer mode pages, click the Add button to input the frequently-using NVR's IP address, after that, you will no need to manual enable the Internet Explorer mode when you access the NVR next time. The IP address standard is: http://www.autonat.com, http://www.autonat.com.
